

My.Wartburg... *Tips to make your teaching life easier!*

Pull a Random Set Number of Questions from a Pool of Questions in a Quiz or Test

1. Open your course, click on Coursework.
2. Add a test or quiz - [Directions](#)
3. Add more questions than you plan on including in the quiz or test (i.e. 50 quiz questions available to have my.wartburg randomly select 25 of the 50 to include in the quiz or test).
4. In Test Builder, click on the **Edit** link
5. In **Type** check the radial button to select **Pool**
6. Enter the **Number of questions to give**
7. Enter the **Point value for each question**
8. Click on **Save this section**
9. You will not see in the Test Builder “___ questions are given randomly from this question pool.”
